ANNUAL REPORT

OF THE

COMMITTEE OF MANAGEMENT OF THE MELBOURNE
MECHANICS' INSTITUTION FOR THE YEAR ENDING
DECEMBER 31, 1848.

N laying before you the Annual Report of the Society's progress, during the past year, your Committee would express their great satisfaction in the continued success of the Institution.

The Report which was submitted to you at the last Annual General Meeting, embodied certain anticipatory views with reference to the extension of the Society's objects and the reduction of the Mortgage debt. Your Committee have much pleasure in stating that they have fully realized their anticipations. The Mortgage debt, which amounted last year to £1017 10s. has been reduced to £800, the amount of Mortgage effected with the Savings' Bank now constituting the sole remaining debt of the Institution; a scheme for the further reduction of which will be submitted for your approval this evening.

In order to effect this very desirable object, and to enable your Committee to carry out the scheme of expenditure, proposed and approved of at the last Annual General Meeting, and more particularly in reference to the expenditure of £150, on the Reading Room and Library, six members of your Committee guaranteed a loan of Ten Pounds each, to meet any deficiency that might arise therefrom; but owing to the increased income of the Society, an advance of Five Pounds only has been required from five members of your Committee. The payment of the balance of the old Mortgage, amounting to £217 10s., was considered of paramount importance to of the Institution, independent of the saving effected of nearly £26 interest, per annum.

Your Committee would direct your attention to the following extract from the Treasurer's account, which has been duly audited, and which is appended to this Report for the information of the members, by which it will be seen that there has been an accession of thirty

members over the last year, and an increase in the amount of entrance fees of £14 5s. The income for the past year being:—

| | | | |
|---|------|----|----|
| By balance from previous year..... | £13 | 8 | 4 |
| „ Entrance Fees from new members | 40 | 5 | 0 |

| Sinking Fund for the payment of Mortgage | 100 | 0 | 0 |
| Reserved for contingencies | 39 | 0 | 0 |
| | £590 | 0 | 0 |

The number of members will be seen on reference to the List appended to this Report, is 379:—

| | |
|------------------------|-----|
| Honorary Members | 21 |
| Visiting Members..... | 17 |
| Life Members | 29 |
| Annual Members | 312 |
| | 379 |

Your Committee would now report on the various branches of the Society's objects:—

LIBRARY AND READING ROOMS.

During the past year, the sum of £153 4s. have been expended in the purchase of Books and Periodicals for the use of the members, by which the Library, inclusive of donations, has been extended 478 volumes, and now consists of 3228 volumes.

The Committee propose and pledge themselves to expend at least the sum of £150 towards the increase of the Library, in securing works of the highest order of Literature, and in procuring periodicals and newspapers, for the Reading Room.

The Committee have also, they confidently trust, by the appointment of another Agent in London, insured a more punctual transmission of Periodicals and Newspapers than has hitherto unavoidably been the case.

THE MUSEUM.

In consequence of the desire of the Committee of Management to relieve the Society as fully as possible from debt, this branch of the Society has not received that extension which they would wish; some donations thereto have been made, and which will be duly acknowledged in the appendix to this Report.

LECTURES.

From unavoidable circumstances, the Lectures have been discontinued during the past Session, but measures are being adopted by your Committee to ensure a course of Lectures during the present year, several gentlemen having already promised to meet their wishes in this respect.

CLASSES.

The Drawing Class, under the superintendance of Mr. Gilbert, is still progressing, but the Committee regret to observe, that the attendance is not so full as they could wish; and as the instructions are gratuitous, they would urge the members to avail themselves of this opportunity of acquiring a knowledge of an Art at once practically useful and instructive.

THE MUSIC CLASS,

Established during the present year, under the direction of Mr. Megson, has been mainly formed through the exertions of Mr. D. T. Kilburn, and numbers already upwards of seventy members: Two concerts have been given, which have proved highly successful. The Committee feel that the beneficial influence which classes of the above kind exercise, is too evident to require comment from them. They would, however, impress upon the members generally, whilst closing their Report, the necessity of an ardent co-operation on their parts to assist the Committee in the furtherance of all those objects which fall within the scope and purposes of Mechanics' Institutions.
